

Mr. K. Senthil Madhavan, aged 61years. File No. 116599

A diabetic for 10 years being treated at the M.V. Hospital for Diabetes, Royapuram, Chennai.

His comments:

I am coming from Manali, Chennai. M.V. Hospital is a very good hospital, where all the doctors, nurses and the treatment offered are excellent. Dr. Rajesh Kesavan, the podiatric surgeon, is very good; his advice and treatment healed my leg. Ms. Bamila is a friendly person and offers foot care treatment and advice in a very kind manner.

All the facilities and the procedure of appointment fixation are excellent. I express my best wishes for the hospital, especially the staff of the Foot Department for their excellent care.

Mr. G. Munusamy, aged 70 years. D. No. 93812

Diabetic for 14 years attending the M.V. Hospital for Diabetes, Royapuram, Chennai

Underwent a surgery 6 years ago at M.V. Hospital for Diabetes

His comments:

I come from Villupuram, which is about 250 km away from the hospital. I am the eldest among my seven brothers, and I have five daughters and one son. I am a Forest Officer, involved in much physical work. I walk daily for a distance of 1–15 km and I am also a sportsman.

Dr. Vijay Viswanathan is a very efficient doctor and a nice gentleman; he approaches me and my family in an affectionate manner. It gives me a lot of pleasure when the doctor treats me and my family with cordial affection. I had much pleasure having treatment from him and I will sincerely adhere to the instructions given by him regarding my diabetic treatment.

During a meeting at the hospital with Dr. Vijay, he said that his patients must not lose any part of the body. It is a hospital looking at the welfare of the patients, including ward facilities, meals, TV, etc. All these facilities are separately monitored by the people working in the hospital.

It is a neat and the cheapest hospital in the state. I assume the M.V. Hospital as my “mother vilakam” (mother’s home).

I wish and also pray to god to give long life to Dr. Vijay and also his family.

Mrs. K. Parvathy, aged 53 years. D. No. 81767

A diabetic patient for 12 years, residing at Vadapalani, Chennai.

Her comments:

I have a regular follow-up, once every 3 months, with all tests and check-up done on a regular basis at the M.V. Hospital for Diabetes. I had a small tumour on my foot, which was operated at this hospital.

Currently, I am not able to follow proper diet and exercise patterns, but medications only are very helpful.

The hospital surroundings are very clean, including the wards and room and toilet facilities. The bed covers are very clean and of fine quality. All the doctors and the nursing staff are very good.

I had good benefits by wearing the footwear for my foot problem, and the footwear are also cheaper.

Seeing Dr. Vijay's face and receiving his treatment gives me good satisfaction.
